Subject: Call regarding GSP

Someone must have published my telephone number as the number to call to weigh in on the Sun City/Sun City West Groundwater Savings Plan. I will continue to transcribe these messages as received.

"We heartily approve of the Groundwater GSP Savings Plan as the best alternative to conserve Groundwater. It makes no sense to be watering golf courses with life-saving water. We are Harry and Rita O'Brien (O'Bryan or O'Brian?) at 14707 West Yosemite Drive in Sun City West. [REDACTED]"

Another voice message received over the weekend:

"My name is Alice Kiplinger from Sun City West and I am calling to say I am in favor of the Sun Cities Groundwater Savings Plan and I hope that this goes through."

To: CommWing; DiNunzio, Mark; Johnson, Ernest; Kennedy, Robert; Olea, Steven
Date: 9/3/02 11:35AM
Subject: Calls regarding GSP

A caller was kind enough to explain how she was prompted to call the Commission. An article appeared in the Sun City West Rec Center Newsletter. The newsletter carried my direct phone number, hence the calls.

Owen Wirak, a SCW resident:

"My wife and I support the SC groundwater savings program. We need to have that CAP water as a backup to preserve the groundwater for our future. Thank you."

James and Patricia Marks, Sun City West residents:

"I think the plan for the groundwater savings plan will meet my criteria for supporting our water needs for many years to come. Something has to be done because using groundwater doesn't make sense. Maybe we can reclaim some of our wastewater someday for use on golf courses and common areas."

Bill and Jan Ludwick, Sun City West [REDACTED]

"We are calling to express support for the Sun City West CAP Water plan."

Glenn L. and Isola G. Christiansen, Sun City West, [REDACTED]

"This is really ridiculous when we have a water problem and this drought is going on. It keeps getting worse and we're going to pay more as time goes by anyway. The consequences of not doing something are too great. We have to have some foresight. Let's get this groundwater savings program started."

Jim & Becky Figgins from Sun City West, [REDACTED]

"I'm calling to show my support for the groundwater savings program."

Subject: Comments re GSP

Paul Wilt (?) Sun City West, [REDACTED]

"Calling to express my support for the groundwater conservation program the Corporation Commission is considering. Please, please endorse this program. Thank you."

Gordon Stronigan [REDACTED]

"I would like to express non-support for the groundwater program."

Helen Kleppinger of Sun City West [REDACTED]

"I am calling to express my support for the groundwater savings plan for the Sun Cities. Thank you very much."

Robert Kiplinger of Sun City West

"Can I leave a message? My name is Robert Kiplinger and I'm for the Sun City Groundwater Savings Plan. I'm in favor of it. Thank you." *

(Despite the similarity of names the calls came about one hour apart and both went to voice mail. I do not believe these are separate calls from the same household. Helen pronounced her last name "Clepp-ING-urr" and Robert pronounced his KIPP-ling-urr.)

Subject: Calls regarding GSP

Both via voice mail:

"My name is Pat Mueller I am calling to express my support for the Sun Cities Groundwater Plan. My call-back number is [REDACTED] and I live in Sun City West."

Howard Hearst (Hirst?)

"This is Howard Hearst and I live in Sun City West and I am very much opposed to the water district taking over and putting the pipeline into Sun City West. I know the Rec Centers are for it and I am against it, along with a lot of other ones."

Subject: More calls re GSP

Three more messages regarding the GSP:

"My name is Adele Williams my phone number is [REDACTED] and I am calling in regards to the Sun Cities Groundwater Savings Plan which I am in favor of...the CAP water. You can call me back if this isn't sufficient for comment."

"My name is Robert Montgomery. I am calling on behalf of my wife and I and we live in Sun City West. We would like to make sure you know that we support completely the Sun Cities groundwater savings plan approach and we think that the SC Taxpayers is way off base in their request. So we would like the Commission to know we fully support the groundwater savings plan. Please make a record of this and communicate it to the Commissioners. If you would like to talk to me my name is Robert Montgomery and my phone number is [REDACTED]."

Frances C. Erickson and James C Erickson, Sun City West residents, [REDACTED]
"I am really, really in favor of the savings plan to use CAP water."
